

# Training Program on *Supplier Sustainability Management*

## ABOUT THE PROGRAM

Join our comprehensive Supplier Sustainability Management training program designed for executives and higher management. This two-day workshop, available on-site or online, offers flexibility in terms of participants and pricing. The training content can be customized to meet your specific organizational needs.

Through interactive sessions, assessment exercises, and evaluation, participants will gain advanced knowledge on ESG and sustainability practices. Ideal for executives seeking to enhance supplier sustainability within their supply chains.

Upon completion, participants receive a Certificate of Achievement, and the training is HRD Corp claimable. Gain skills to effectively manage supplier sustainability and contribute to a more sustainable future.

## WHO SHOULD JOIN?

This comprehensive training program is specifically tailored for executives and higher management who are responsible for supplier sustainability management within their organizations.

Whether you have existing sustainability initiatives or are looking to implement them, this program will provide you with the necessary skills and knowledge to effectively manage supplier sustainability and contribute to a more sustainable future.

## LEARNING OBJECTIVES:

On completion of this workshop, you will be:

1. Understand the importance of supplier sustainability & its impact on the supply chain.
2. Identify the key elements of supplier sustainability: environmental, social, & economic aspects.
3. Evaluate supplier sustainability performance using criteria & tools.
4. Develop a supplier sustainability scorecard for effective monitoring.
5. Map the supply chain to identify sustainability risks & enhance transparency.
6. Build collaborative relationships with suppliers & communicate sustainability expectations.
7. Support & empower suppliers to improve their sustainability practices.
8. Develop action plans for sustainability enhancement within the supply chain.
9. Monitor & evaluate supplier performance to ensure sustainability goals are met.
10. Foster collaboration & partnerships with suppliers for continuous improvement.
11. Establish a supplier code of conduct & conduct audits for compliance.
12. Communicate sustainability performance to stakeholders using reporting frameworks.
13. Analyze case studies & engage in practical exercises for real-life application.
14. Participate in group discussions & knowledge sharing sessions.
